why wish work would write your wash which	
	I wish your work was over so you could play with us.
	Would you please write your name down right here?
	Do you wish you could fly?
	Do you know why I like your white dog?
	Both of us would like to make a wish or two.
	Why does he always write with a red pen?
	Your wish may work out very well.
	Any boy would like to ride in your green van.
