him his how just know let live may	
	His mom will let him know where to sit.
	She could live in that little brown hut.
	You may let me know how to play the game.
	Just tell me how you know her.
	I want a pretty red cup just like his cup.
	How did you know he could live by me?
	Just let me give you a little help.
	He may fly by again one day.
